SUPPORT FOR BETTER BEHAVIOUR & BETTER LEARNING

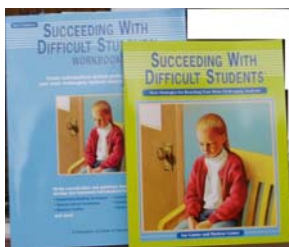

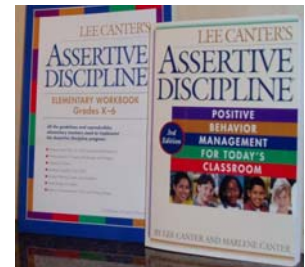

Behaviour and Learning Management has provided support and training for education professionals for twenty years. During that time we have worked in thousands of secondary, primary, special schools and units as trainers and consultants. Based on our experiences and observations in UK schools we have developed a broad range of public and in-house training courses and consultancy packages to meet a diverse range of needs. We have assembled a comprehensive suite of helpful resources covering books, videos, CDs and PowerPoint presentations to support school managers and teachers as they develop positive approaches in their schools.

For information about any of our training materials or in-house training contact us by phone on 0870 241 8262 or email info@behaviour-learning.com

You may also order materials directly from our web site at www.behaviour-learning.com where you will also find details of our current programmes of training in the UK.

"ASSERTIVE DISCIPLINE – Positive Behaviour Management for Today's Classroom" by Lee & Marlene Canter (3rd Edition)

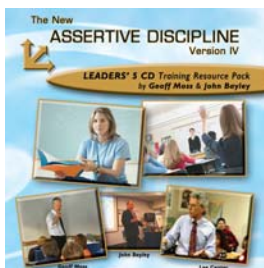

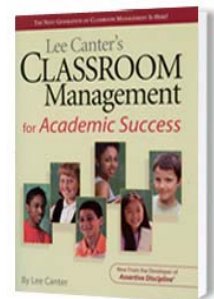

The latest revision of the all time best seller (over 2 million copies worldwide) provides more detailed techniques for teaching better behaviour by giving quality feedback to change behaviour (i.e. assessment for behaviour learning). Its key idea of **teaching** responsible behaviour to today's pupils is central to current themes like emotional literacy and citizenship, while its enumeration of the core professional competencies will help establish positive relationships in classrooms and promote consistency of application across the school.

"SUCCEEDING WITH DIFFICULT STUDENTS" by Lee Canter and Marlene Canter

Tackling tough behaviour! This book provides the follow-up stage to Assertive Discipline. How to deal with students who constantly disrupt, are unmotivated, demand attention, openly confront, do not complete assignments and are at risk of failing. This text describes how to build trust, to understand what motivates these pupils, to individualise your approaches accordingly, and so integrate these pupils into the regular classroom. Also available are teachers' workbooks and a complete UK video programme.

"CLASSROOM MANAGEMENT FOR ACADEMIC SUCCESS" - structuring the lesson to promote effective learning and to avoid behaviour disturbance. This latest and comprehensive work from Lee Canter will guide teachers through a pedagogical approach that teaches students the behaviours they need for academic success. Establish lesson routines and learning behaviours. Spend less time managing and more time teaching – achieve a classroom where students are self-directed and independent – implement a 'Two Week Turnaround Programme'. Lesson planning here merges curriculum and behaviour in a seamless manner to enhance the teaching and learning process.

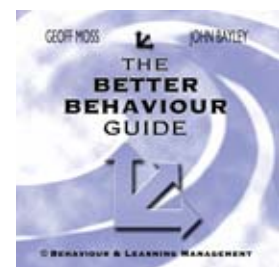

"ASSERTIVE DISCIPLINE 5 CD TRAINING RESOURCE PACK" Geoff Moss & John Bayley

"A significant contribution to behaviour skills learning for teacher professional development". This Training Pack contains 5 CDs, and includes the complete PowerPoint presentations for the New Assertive Discipline® Master Class with voice commentary by Geoff Moss. *Site licence* for you to edit and use the new PowerPoint programme in your own training. Over 120 slides ready made for you! Comprehensive presenters' notes on every detail of the new programme, explaining the concepts and providing training activities. Complete set of 4 video CDs presented by John Bayley. Editable digitalised video clips with *site licence*. Primary or secondary versions.

"THE BETTER BEHAVIOUR GUIDE CD" by Geoff Moss and John Bayley

This new CD is the extension of Moss & Bayley's acclaimed series for *Managing Schools Today*, now as an ebook containing 12 detailed chapters dealing with School Policy, Classroom Management, Individualised Approaches for tougher behaviour, Professional and Organisational Development and a further 6 Appendices containing Questionnaires and Checklists for use in analysing both teacher and pupil behaviours. All presented both in html format for directly downloading onto your school intranet and as pdf files to print off for your school's professional training work.
